SOLSTICE GOLD

SOLSTICE GOLD TO PARTICIPATE IN THE GENTILE MINING INVESTOR FORUM IN LONDON

Solstice joins over 20 companies from Michael Gentile's portfolio at the inaugural Forum on October 19, 2026, in Mayfair, London

VANCOUVER, BC, September 18, 2026 — **Solstice Gold Corp (TSXV: SGC)** ("**Solstice**" or the "**Company**") today announced its participation in the inaugural **Gentile Mining Investor Forum**, a full-day investor conference in **London** on **Monday, October 19, 2026**, at 116 Pall Mall in Mayfair. The program is presented by strategic junior mining investor **Michael Gentile** in partnership with **Amvest Capital Inc.** ("Amvest Capital") and made possible by the generous support of Flagship Sponsors **ATB Cormark Capital Markets**, **Beacon Securities Limited**, and **STIFEL**. Full program details and registration are available at gentileminingroadshow.com.

"I created this program to give serious investors direct, in-person access to a select group of companies I've backed with conviction. Each one represents what I believe to be a high-potential opportunity in the mining sector. These are names I have researched deeply, invested in personally, and believe have the potential to deliver meaningful value. Amvest Capital has been an outstanding partner in building a week of events that meets the standards these investors and companies deserve," said Michael Gentile.

The Forum will bring together up to 150 investors, family offices, wealth managers, and sector-focused high-net-worth individuals for a full day of structured one-on-one meetings and dedicated issuer showcases alongside over 20 companies from Gentile's portfolio, including **Solstice Gold**. The day opens with a keynote breakfast featuring Michael Gentile, presented by session sponsor **Canaccord Genuity**, followed by issuer showcases presented by **TSX and TSX Venture Exchange**, an executive lunch and speaker panel, and an all-day investor lounge and networking reception hosted by session sponsor **Investor Events**. **Crux Investor** serves as the Forum's media sponsor.

"Our team has spent years building relationships with resource investors across North and South America, Europe, and Asia. This program puts that network to work, giving these companies direct access to a global base of qualified investors in a single room," said Gabriel Alonso-Mendoza, Co-Founder and Managing Partner of Amvest Capital. "Michael's conviction and hands-on approach to these companies fit perfectly with our firm's philosophy. We are thrilled to once again partner with Michael and his portfolio companies."

Pablo McDonald, CEO, stated, "*We are proud to have Michael Gentile as our largest shareholder and an Independent Director, bringing valuable connections and access to investors through premier events such as Gentile Mining Investor Forum. Along with Michael as a major shareholder, combined board and insiders own nearly 40% of our issued and outstanding shares. The timing of this event is particularly significant for Solstice following our recent acquisition of the historic Leckie Gold Zone, which has consolidated our district-scale control of gold potential in Ontario's Temagami Greenstone Belt, including significant historical gold drill intercepts that remain open for follow-up exploration. Engaging with investors at this level is an important step in raising*

Solstice's profile as an emerging junior explorer with a promising drill-ready district-scale gold play in the Abitibi Subprovince."

Register Now

Investor registration is now open. Investor attendance is free of charge; registrations are reviewed prior to confirmation. Space is limited, and meetings are allocated on a first-confirmed basis. Full program details and registration are available at gentileminingroadshow.com.

About Solstice Gold Corp.

Solstice is an exploration company with quality, district-scale gold projects in established mining regions of Canada. Our 57 km^2 Strathy Gold Project hosts high-grade gold mineralization, including visible gold, over a wide area straddling two NE-SW-trending structures. It is located in the Abitibi Subprovince of Ontario and has never been systematically explored in its history. Alpha IP surveys totaling over 34 line km completed in 2024 and 2025 defined 50 new targets and show that the largest IP anomaly corresponds with the Red Cedar Discovery of 8.5 g/t Au over 3.5 m. Follow-up drilling at Red Cedar intersected multiple high-grade intercepts with visible gold, as well as a "Leckie-type" intercept approximately 600 m from the Leckie Gold Zone, which has been the focus of more than 23,000 m of historical drilling. The acquisition of the Leckie Gold Zone consolidates the Strathy Gold Project and unlocks, for the first time, the potential to expand the historically significant Leckie Gold Zone and unlock the substantial potential for future discoveries and resource expansion at Strathy.

Our Qaiqtuq Gold Project which covers 662 km^2, hosts a 10 km^2 high grade gold boulder field, is fully permitted and hosts multiple drill-ready targets. Qaiqtuq is located in Nunavut, only 26 km from Rankin Inlet and approximately 7 km from the Meliadine Gold Mine owned by Agnico Eagle Mines Limited.

Our district-scale Atikokan Gold Project is approximately 26 km from the Hammond Reef Gold Project owned by Agnico Eagle Mines Limited. Our 194 km^2 Red Lake Extension (RLX) and New Frontier projects are located at the northwestern extension of the prolific Red Lake Camp in Ontario and approximately 45 km from the Red Lake Mine Complex owned by Evolution Mining.

Solstice is committed to responsible exploration and development in the communities in which we work. For more details on Solstice Gold, our exploration projects and details on our recently acquired portfolio of projects please see our Corporate Presentation available at www.solsticegold.com.

Solstice's Chairman, David Adamson, was a co-award winner for the discovery of Battle North Gold Corporation's Bateman Gold deposit and was instrumental in the acquisition of many of the district properties in the Battle North portfolio during his successful 16 years of exploration in the Red Lake.

Paul Chamois, M.Sc. P.Geo., Senior Geologist, is the Qualified Person as defined by NI 43-101 standards responsible for reviewing and approving the technical disclosures of this news release.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Forward-Looking Statements and Additional Cautionary Language

This news release contains certain forward-looking statements ("**FLS**") including, but not limited to, gold potential in the Temagami Greenstone Belt, greenfields discovery potential across a district-scale land package, the Company's planned exploration and expansion activities, including drill testing, execution of a drill program in Q4 2026, and expansion at the LGZ and the Red Cedar Discovery, and the potential for resource development and unlocking value. FLS can often be identified by forward-looking words such as "approximate or (~)", "emerging", "goal", "plan", "intent", "estimate", "expects", "potential", "scheduled", "may" and "will" or similar words suggesting future outcomes or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, save and except as may be required by applicable securities laws.

Since forward-looking information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These risks include, but are not limited to risks generally related to the integration of properties into the Company's current property holdings, title risks associated with the acquisition and general risks relating to the Company's business including that there is no guarantee that continued exploration at Solstice exploration projects, all of which are at an early stage of exploration, will lead to the discovery of an economic gold deposit, the ability of the Company to continue exploration at its projects and the risk of future lack of access to the projects as a result thereof, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, inability to locate source rocks, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, regulatory approvals and other factors. FLS are subject to risks, uncertainties and other factors that could cause actual results to differ materially from expected results.

All forward-looking statements are based on the Company's current beliefs as well as various assumptions made by Company management and information currently available to them including that testing and expansion at the Red Cedar Discovery may not occur when anticipated or at all. There can be no assurance that such assumptions will prove to be accurate and actual results and future events could differ materially from those anticipated in such. Forward looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies.
